

Are We Forever DOOMED by Software Supply Chain Risks?

Steve Kinman

THE SUCCESS OF THE DIGITAL REVOLUTION MAKES SW APPS CREATED FASTER & FASTER →

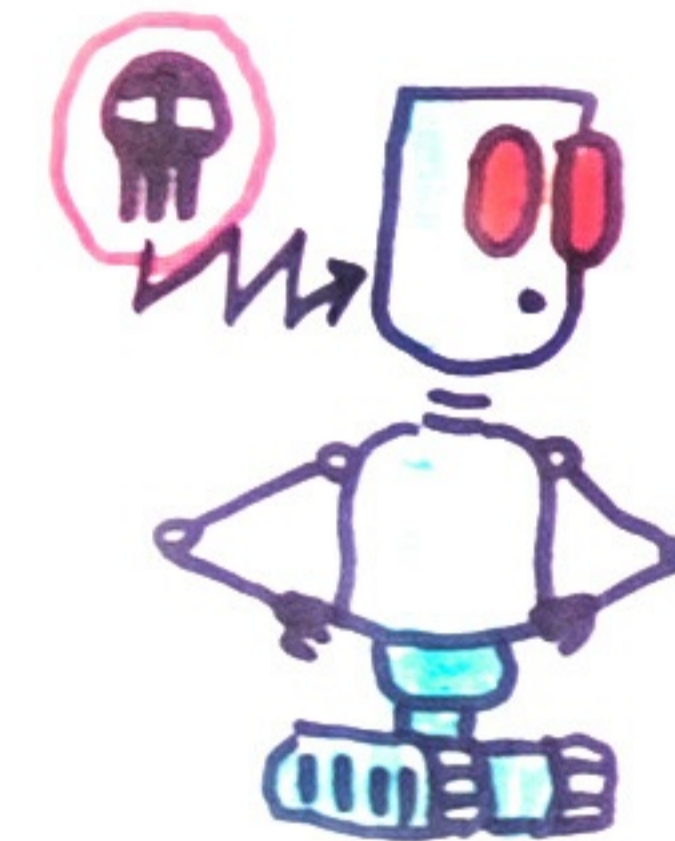

REACTIVE APPROACHES ARE ALWAYS BEHIND THE ATTACKERS

OPEN SOURCE SECURITY SOFTWARE ARE OUR BUILDING BLOCKS

THEY ARE TARGETING DEVELOPERS

MANY DEVELOPERS LACK SECURITY-HYGIENE SKILLS FOR THEIR CODE
DEFINITELY NOT PIG-PEN

HOW IS THE DATA PROVIDED GOING TO BE USED?

THEY ARE ATTACKING THE HEART OF DEVELOPMENT TOOLING

PEOPLE USUALLY REPRESENT THE WEAKEST LINK IN THE SECURITY CHAIN

MAYBE USE A TOOL THAT PREDICTS ATTACKS TO SW - BEFORE THEY HAPPEN

- Multi-Factor Auth,
- Strong PW's
- Code Check

THE MORE APPLICATION SERVICES WE HAVE, THE MORE CASES OF ABUSE WE SEE
