

SEI BULLETIN - JANUARY 11, 2017

A Technical History of the SEI

Authored by founding SEI Director [Larry Druffel](#) and a host of SEI contributors, this book-length report chronicles the technical accomplishments of the Software Engineering Institute and its impact on the Department of Defense software community, as well as on the broader software engineering community. The technical accomplishments of the SEI are interwoven with the technical developments in the broader software engineering community. The described technical work is organized into areas of importance to the mission of the SEI: Real-Time Embedded Systems, Education and Training, Management, Security, Software Engineering Methods, Software Architecture, and Computer Forensics.

SEI EVENTS

This week's featured events:

[Software Solutions Symposium 2017](#)

[SATURN 2017](#)

SEI CYBER MINUTE

SEI experts deliver weekly snapshots of our latest research on the changing world of all things cyber. This week:

[Machine Learning](#)

SEI TRAINING

Upcoming classes:

[Leading a Development Team](#)

February 22 - 24, 2017 (Pittsburgh, Pa.)

[Managing Computer Security Incident Response Teams](#)

March 7 - 9, 2017 (Arlington, Va.)

SEI CAREERS

This week's featured opportunities:

[Senior Architecture Researcher](#)

[IT Systems Engineer and System Administrator](#)

ABOUT THE SEI BULLETIN

The SEI Bulletin is a biweekly newsletter designed to keep you up to date on SEI news, events, research, and other matters of interest to the SEI community. We hope you find the SEI Bulletin useful and informative.

SEND US YOUR STORY

Do you have a story about how an SEI technology has positively affected your team or organization? If so, the SEI would like to hear about it. Send a short summary of your success to info@sei.cmu.edu and you could be featured in a future issue of the SEI Bulletin.
