SEI BULLETIN - APRIL 19, 2017

Software Engineering Institute Makes CERT C++ Coding Standard Freely Available

In March, the Software Engineering Institute (SEI) released the 2016 edition of the *SEI CERT C++ Coding Standard*.The standard provides rules for secure coding in the C++ programming language to help developers create safe, reliable, and secure systems free from undefined program behaviors and exploitable vulnerabilities. This C++ Coding Standard joins the *SEI CERT C Coding Standard*that was released in 2016. Both of these standards have been made available as free downloads in response to user demand, providing a wealth of expert knowledge and best practices for developing secure software systems in C and C++.
