

SEI BULLETIN - August 23, 2017

## CERT Guide to Coordinated Vulnerability Disclosure Released

The CERT Division of the Software Engineering Institute at Carnegie Mellon University has released a special report titled the *CERT Guide to Coordinated Vulnerability Disclosure*. The report is available as a free download from the CERT Division website. Coordinated vulnerability disclosure (CVD) is a process intended to ensure that these steps occur in a way that minimizes the harm posed by vulnerable products. The *Guide* provides an introduction to the key concepts, principles, and roles necessary to establish a successful CVD process. It also provides insights into how CVD can go awry and how to respond when it does so.

#### ABOUT THE SEI BULLETIN

The SEI Bulletin is a biweekly newsletter designed to keep you up to date on SEI news, events, research, and other matters of interest to the SEI community. We hope you find the SEI Bulletin useful and informative.

#### SEND US YOUR STORY

Do you have a story about how an SEI technology has positively affected your team or organization? If so, the SEI would like to hear about it. Send a short summary of your success to [info@sei.cmu.edu](mailto:info@sei.cmu.edu) and you could be featured in a future issue of the SEI Bulletin.
