SCSS 2019: DoD Technology Leaders to Address Cloud Computing Challenges

If you want to get a handle on the emerging trends, challenges, and opportunities in the field of cloud computing, plan to attend [SCSS 2019: Benefits and Risks of Cloud Computing](#) on September 10 and 11 in Arlington, Va. This fall's Software and Cyber Security Symposium brings together a wide array of experts to discuss a range of issues important to professionals operating in the cloud environment.

There is no charge to register for the symposium on September 10. Attendees may also register for half-day tutorials on related topics. The tutorials, which are free to government employees, will take place Wednesday, September 11.

About the SEI Bulletin

The SEI Bulletin is a biweekly newsletter designed to keep you up to date on SEI news, events, research, and other matters of interest to the SEI community. We hope you find the SEI Bulletin useful and informative.

Send Us Your Story

Do you have a story about how an SEI technology has positively affected your team or organization? If so, the SEI would like to hear about it. Send a short summary of your success to info@sei.cmu.edu, and you could be featured in a future issue of the SEI Bulletin.

Our mailing address is

Software Engineering Institute | Carnegie Mellon University | 4500 Fifth Avenue, Pittsburgh, Pa. 15213
