SATURN 2020
16th Annual SEI Architecture Technology User Network Conference

MAY 11–14, 2020 | ORLANDO, FLORIDA

SEI Bulletin — October 30, 2019

SATURN Conference on Software Architecture Opens Call for Submissions

The SEI Architecture Technology User Network (SATURN) 2020 conference has opened its call for technical program submissions. Proposals are due by January 10 at the conference's PaperCall online system. SATURN 2020 will be held May 11-14 in Orlando, Florida.

The three topic areas for this year's technical program are machine learning, artificial intelligence (AI), and data-centric systems; modern approaches for architecting distributed systems; and other design and development techniques, patterns, and solutions.

The 16th annual SATURN conference brings together an international audience of practicing software architects, industry thought leaders, developers, technical managers, and researchers to share ideas, insights, and experience about effective architecture-centric practices for developing and maintaining software-intensive systems.

About the SEI Bulletin

The SEI Bulletin is a biweekly newsletter designed to keep you up to date on SEI news, events, research, and other matters of interest to the SEI community. We hope you find the SEI Bulletin useful and informative.

Send Us Your Story

Do you have a story about how an SEI technology has positively affected your team or organization? If so, the SEI would like to hear about it. Send a short summary of your success to info@sei.cmu.edu, and you could be featured in a future issue of the SEI Bulletin.

Our mailing address is
