SEI Bulletin — May 27, 2020

The Future of Cybercrime and Election Security

In the latest [SEI podcast](#), David Hickton, founding director of the University of Pittsburgh Institute for Cyber Law, Policy, and Security, sits down with Bobbie Stempfley, director of the SEI's CERT Division, to talk about the future of cybercrime and secure elections. "We have to vote, and we can't abandon the digital platform," says Hickton in the podcast. "But right now the threats to the digital platform exceed our ability to protect it when it comes to voting."

About the SEI Bulletin

The SEI Bulletin is a biweekly newsletter designed to keep you up to date on SEI news, events, research, and other matters of interest to the SEI

community. We hope you find the SEI Bulletin useful and informative.

Send Us Your Story

Do you have a story about how an SEI technology has positively affected your team or organization? If so, the SEI would like to hear about it. Send a short summary of your success to info@sei.cmu.edu, and you could be featured in a future issue of the SEI Bulletin.

Our mailing address is

Software Engineering Institute | Carnegie Mellon University | 4500 Fifth Avenue, Pittsburgh, Pa. 15213
