Issues of Scale: A Community Perspective

Software Engineering Institute
Carnegie Mellon University
Pittsburgh, PA 15213

March 2008

Software Engineering Institute | **Carnegie Mellon**

Panel Objectives

What types of ultra-large-scale systems will there be in your organization/industry?

What do you see as the major scale challenges and issues in your organization/industry?

How do you cope with them today? Will those same solutions work in the future?

Panel Members

John Bloomer, CIO Virtua Health

Bob Kent, Executive Director, SOSSEC

Patricia Hoffman, Principal Deputy Assistant Secretary, Office of Electricity Delivery and Energy Reliability, DoE

Daniel Paulish, Seimens Software Initiative in the Americas, Siemens Corporate Research

Mark Uland, SOSCOE Deputy Chief Architect for the FCS Program, Boeing
