Who Am I?

Ruth G. Lennon

Security is the job of the
DevSecOps team.

I just do what the IT people tell me.

The data analytics team don't need
to know about security. That is the
job of the security team.

Why DevSecOps?

What happen to security?

English Royal Air Force (RAF) - Passwords

Buildings/Estates Manager

The wireless IPM-721 series from US company Amcrest was found to have 2 critical security flaws that allowed the camera to be taken over.

Reception

- Carrying boxes
- Wearing Yellow Vest
- Woman carrying anything heavy?
- Extra polite people

Data Owners

- Data Owners are responsible for data breaches
- Data holders (cloud storage service) are often not held responsible.

- GDPR!

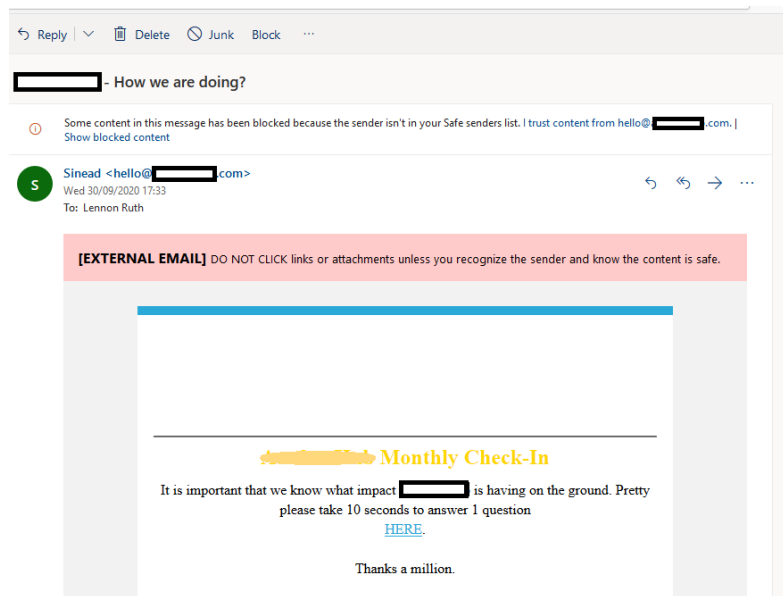

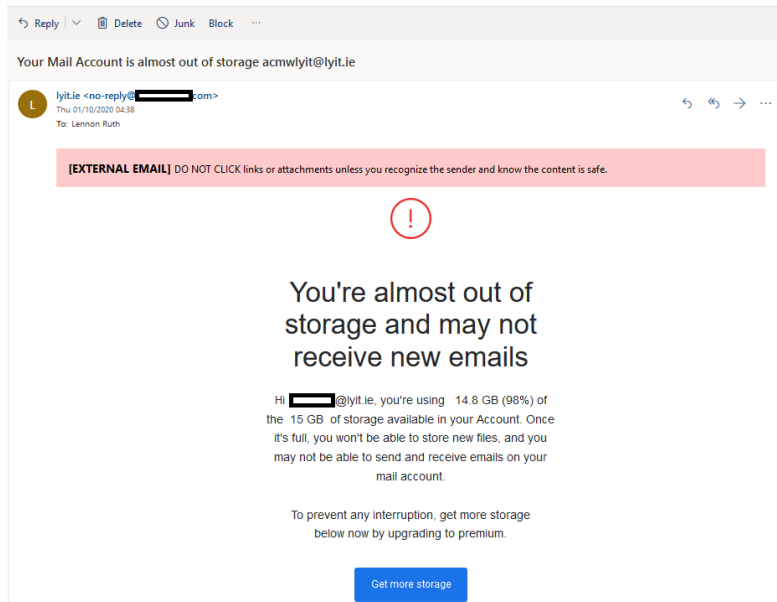

The screenshot shows a web browser displaying the GDPR.EU website. The address bar shows the URL: gdpr.eu/italy-fines-energy-company-for-multiple-gdpr-violations/. The website header includes the GDPR.EU logo, a co-funding notice from the Horizon 2020 Programme, and a search bar. The main navigation menu contains links for Home, Checklist, FAQ, GDPR, and News & Updates. The featured article has a blue background with a close-up of Euro coins and a 50 Euro banknote. The headline reads: "Italy fines Eni Gas e Luce €11.5 million for multiple GDPR violations". Below the headline, the text states: "On Jan. 17, 2020, the Italian Supervisory Authority (ISA) announced it had [imposed two separate fines](#) of €8.5 million and €3 million on Eni Gas e Luce (EGL), an Italian electricity and gas supplier. These fines were in response to two". A "Related articles" button is visible in the bottom right corner of the article preview, accompanied by a small icon of a checkmark inside a circle with stars.

Interns

- How much access do you provide?
- Risk?

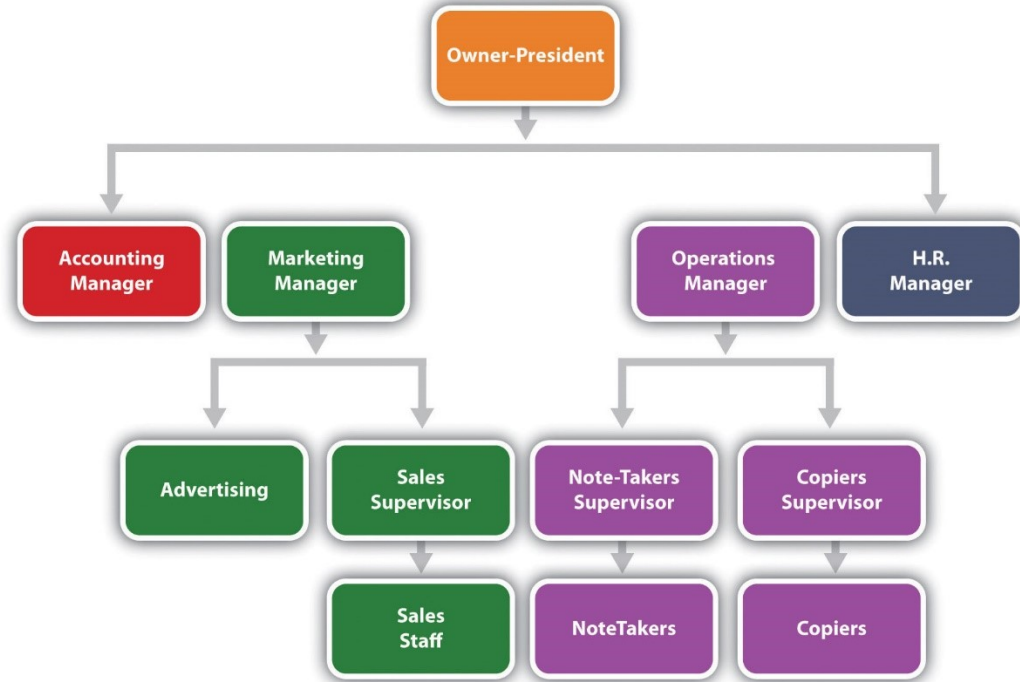

Sematec found that 71% of all targeted attacks start with phishing scams.

Who has access to the network?

- Managers
- Employees
- Non-IT staff
- Guests

Compliance v Security

Compliance with organisational standards is not the same as being secure.

Compliance with national and international standards helps but you need to be proactive.

- Apply the standard(s)
- Monitor and validate
- Update

Compliance v Security

60% of small companies go out of business within six months of falling victim to a data breach or cyber attack.

Awareness

- What are the risks?
- Who will it effect and how?
- Reward?
- Update and validate awareness

Training

- Type
- Frequency
- Promotion
- Validation

Information

- How to protect
- When an event occurs
- What to do next
- How will it effect me
- When it is over

Takeaway

- Each person is responsible for their domain
- Train them to recognise risks so that they can proactively contribute to security
- Keep them informed so that they feel part of the solution
