

# HOW SOFTWARE ACQUISITION AND DEVSECOPS CAN IMPROVE THE LETHALITY OF THE DOD Sean Brady

Evolving OSD acquisition policy from oversight to enablement

We must not accept cumbersome approval chains, wasteful applications of resources in uncompetitive space, or overly risk-averse thinking that impedes change.

there is no spoon I

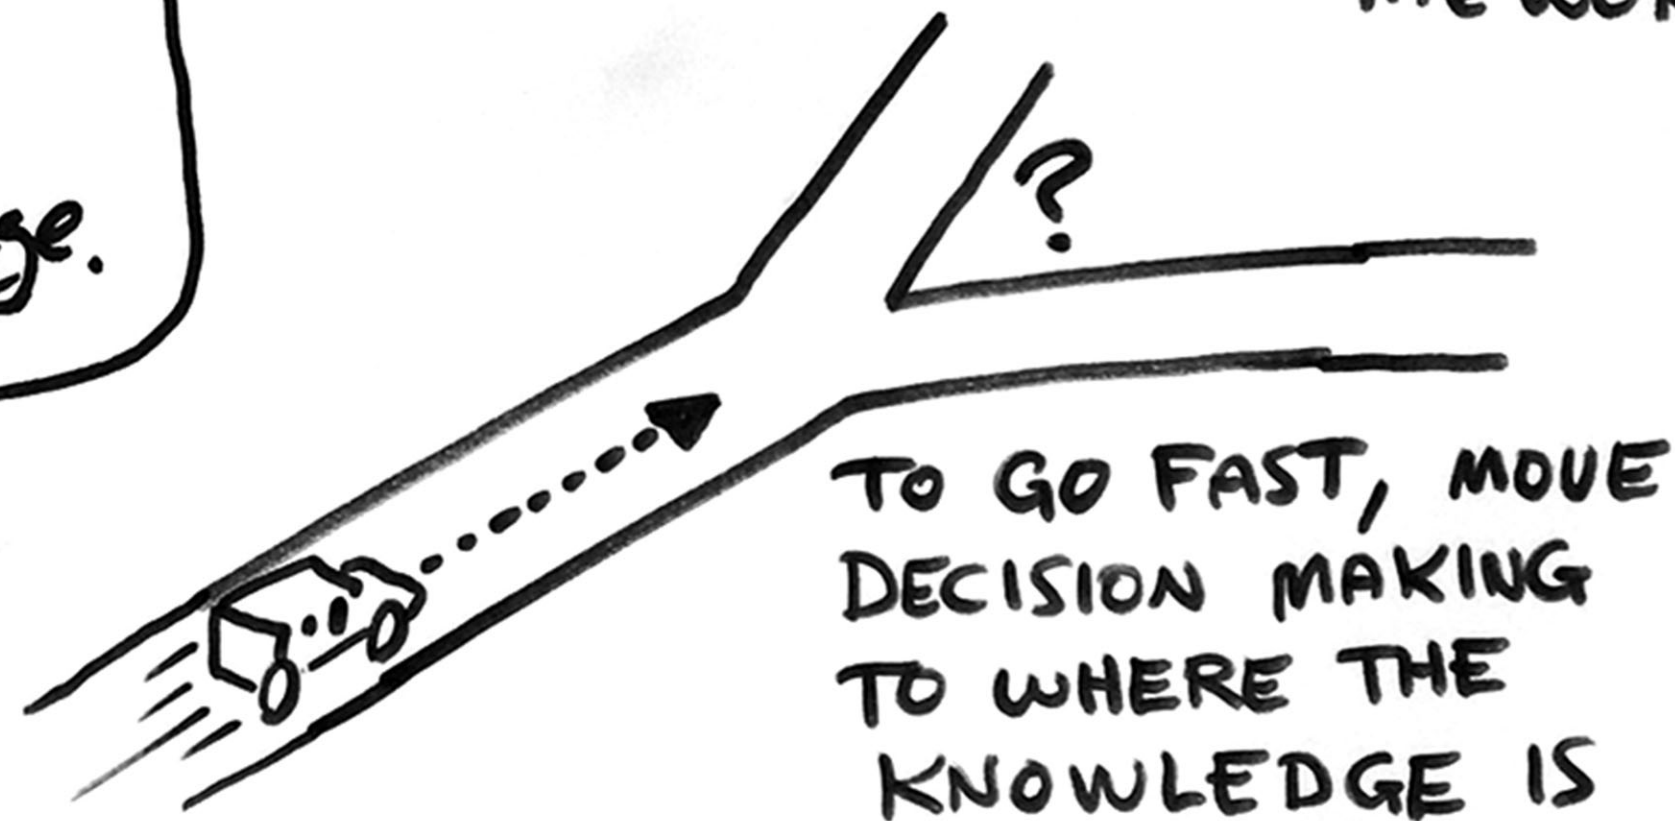

Must Modernize

- PEOPLE
- PROCESS & TECH
- POLICY

SOFTWARE IS EATING THE WORLD

Demonstrate viability and effectiveness of capabilities for operational use within one year after funds 1st obligated

Minimum Viable Product  
- Is it worth continuing the development?

## PLAN

Understand Needs and Plan approach to deliver capabilities

## EXECUTE

Deliver in Small Batches  
Software is Never done
